

APCapstone™

Research, Academic Rigor, Distinction

Topics in this presentation include:

1. *Growth of AP Capstone*
2. *Student testimonials*
3. *Research symposium pictures*
4. *Mentor program*

AP Capstone is Growing!

- ▶ 2014-15: 152 schools in the United States
- ▶ 2017-18: 1173 schools, 120 of which are international
 - China
 - Korea
 - Thailand
 - Saudi Arabia and Kuwait
 - Africa and Latin America

Capstone helped me to work better in a group and absolutely love the people and work I was doing as a strong team unit. Working hard wasn't a chore when the rewards and friendships gained were always more than worth it!

Jordan
Utterback

The AP Capstone Program gives you a glimpse of what work in college will be like. It prepares you for your future and gives you a head-start on your peers. That way, when you reach college it is familiar work.

Kayla Douglas

"Capstone is one of the most fun and explorative classes on campus. It builds team skills, research skills, and writing skills. But most importantly, you get to talk about and explore topics you really, truly care about to ~~people~~ adults who really care and listen."

Stephanie DeVlieger ✓

I really enjoyed expanding my Skills and Knowledge of college-level Writing and Presenting. I appreciate the advantage I'll have in college and beyond by taking part in this Program. It has helped me to realize my potential as a Writer, researcher, Presenter, and Critical Thinker.

-Julia Walkup

Being a part of AP Seminar was a rewarding experience. The skills, such as learning how to properly vet an argument, that I learned in this class carried into my other rigorous classes and allowed me to mature as a student.

~ Olivia Gray

Seminar was the class I didn't know I needed. It provided me with skills I was lacking in writing and researching, and it was the only class that was applicable to every other class I had. It's difficult at times, but the results were worth the struggle.

Clarissa Tallini &

"I loved having the ability
to research any topic in AP
Capstone, and I am grateful
I got to learn so much more
about the world around me,"

~ Bryce Brown

Capstone has opened
my eyes to the potential
that research and
collaboration hold. This
experience taught me that
collaborative research reveals
new perspectives and understandings
about seemingly simple
topics.

- Parker

"The AP Capstone Program has allowed me to gain valuable research skills that change the way I view the world and the information that I gain in my daily experiences."

-Brandon Taft

AP Seminar pushed me to question my surroundings and analyze the effects of everyday problems on different groups of people. This opportunity has provided me with a foundation for research that will help me thrive in the scientific field in college.

-Whitney Herd

Capstone
gave me the
opportunity to field
explore my future
and push me past my scientific
limits to gain experience. Career
research to gain my scientific
experience. Career
changing program!

- Livia Rosales
